WHY CHOOSE US?

FEATURES

Picosecond, fewer shots, faster treatment, and better efficacy. High speed of picosecond split the large lumps of tissue cell into smaller pieces.

High energy & Fast treatment

In a short time with high power, it clearly removes pigment.(Tattoo, Epidermal and Dermal Pigment Lesion).

Korea imported Articular Arm

Made of Diamond ensure 100% energy transmission.

Comfort & Safety

It's effective and safe in treating various pigments as well as refractory pigments because picosecond minimizes damage to skin to remove pigment by precisely aiming the target spot.
